

LOGAL and PERSONAL PERSONAL MENTION

Another revolutionary chicken has hatched in Mexico.

C. W. Emmerson, cashier of the First National Bank of Brush, Colorado, registered at the Fairview last week. He has visited all the islands, and has much to say in praise of the Paradise of the Pacific—especially of the public roads, which he claims are superior to any he has ever seen.

It is thought by some who profess to know that it is a question of only a short time when Hawaii will be placed under military control.

Captain Miller has been grilled over tax returns relative to the James Makee, in connection with the Celtic Chief salvage case.

An embargo may be placed on pineapples at an early date.

Ninety-seven per cent of the employees of the Illinois Central R. R. are ready to strike. The Harriman lines out of Frisco are also threatened by a general strike.

Arthur Rice, one of Kauai's crack polo boys, returned from Honolulu last Wednesday.

E. B. Bridgewater returned from a business trip to Honolulu last Wednesday.

Miss Bernice Hundley of Kapaa, who has been attending the Summer School in Honolulu, returned home last Wednesday.

Kelly, the Obak Cigarette man, arrived from Honolulu last Wednesday and is making the island from the Waimea side.

Sid Spitzer, representing I. Rubenstein Co., Honolulu, and a member of the Associated Press of Kauai, is on his regular trip among our island merchants.

HONOLULU'S CAR SYSTEM

INSTALLS AIR BRAKES

Last Monday saw the first air brakes on the Rapid Transit System, when Superintendent Pratt boarded one of the two big King Street cars which had been the first to be equipped with the device, and threw on the juice. The brakes worked like a charm, and Mr. Pratt was able to demonstrate to the many motormen who had gathered to witness the start, the secret of successfully applying the new brake. The larger cars will be the first to be fitted up, but all will be equipped as soon as possible.

Returning to the city after an absence of two years, we find a great change in its street car system. New extensions, new schedule, additional switches, double tracks and an increase of machinery in the power house sufficiently large to allow for the increased extension now in operation as well as considerable further work which is under contemplation.

Another very prosperous branch of the system, is the Car Men's Association. This is strictly a benefit association and when we consider that the dues are but fifty cents per month, and that the sick benefits are one dollar and fifty cents per day while a member is sick, and that the treasury of the Association contains \$2,500.00, there is every cause for saying, though the work is tiresome, it is healthy.

Chalmers Salesmen In Heated Contest

The Chalmers Motor Company publishes, for the benefit of its dealers and salesmen, an interesting little weekly paper which is called "Chalmers Doings." Just at present "Doings" is conducting a contest which is stirring up a lot of interest among Chalmers salesmen everywhere.

Frank E. Howes of the Associated Garage local representative of the Chalmers Motor Company, is one of the contestants. He has just sent to the editors of the Chalmers Doings the date of his first sale of a 1912 Chalmers car. If he happens to be the fortunate one to have made the earliest sale of a 1912 car he will receive a handsome trophy which is offered by Chalmers Doings.

It is said that something like 2000 Chalmers salesmen are in the competition for the Doings trophy. Reports of sales are coming from all parts of the United States and even from Canada, Mexico, Cuba and the Hawaiian Islands. According to the rules of the contest these early sales of 1912 cars must be bona-fide. No mere promises made last January will go as sales.

Only signed orders are considered.

"Already a great many early sales have been reported," says Howes.

"I do not know if my entry will be early enough to win the trophy which is offered, but I understand that the contest judges will require proof of a bona-fide sale and I do not believe the earliest sale of this kind has been reported as yet."

"An interesting feature of this contest is that none of the contestants know what they are going to win. The trophy has not yet been picked out, but we have received the assurance of the company that the prize will be well worth winning."

Miss Ruth Lindley of Honolulu, is the guest of Miss Lulu Weber.
